They need good communication skills to be able to interact a lot with society and their community.
Respect
Kindness sharing communication
Communication Skills
Communication and social.
Communication, social,
math and science
Communication skills
Social skills so they can help people.

Social skills, leadership skills, mental health awareness, etc.

What mental health support does your student currently need? (answered by parents)
learning how to manage emotions, students need to feel supported and welcomed
implementing SEL programs in the intermediate and high school
more counselor's and social workers
having more social workers, more SEL programming,
Students should learn self regulation, more information for parents
self awareness skills, conflict management
help with attention span
multiple counselors at schools
encouragemnt and more time to complete tasks
culture of encouragment, inspiration, and uplifting
anti-bullying, making a more welcoming space for special eduction students
anti bullying support
more support from all levels of the school
my student needs more one on support on mental health
self esteem, confidence, anti bullying
transition support (moving from home school to in person)
my students need to feel cared about, coping skills
someone to talk to
speaking to counselors
counselor support
more support when he feels threatened by other students and assured if he comes forward that he will be listened to and not retaliated against
my student recieves outside help
counseling
understanding she is pretty tough but that there are difficult days when she misses her mom
my student struggles with anxiety and ADHD
more patience
understanding emotions, not being nervous or shy
more mental health supports and awareness, do something about bullying, stop punishing victims and punish the bullies, more educational support when you see a student struggling, talk more to parents not students on important matters
age undrstanding of how to be successful, coping with losing/rejection, proper social learning development
feeling confident to speak up
more supports for studnets and staff
understand the basic needs of students and families
understand that social media isn't your whole life

CCL (answered by community members and parents)	What are some careers that are of interest to you or careers that you would like more information about? (answered by students)
Co-op Work Study opportunities are in place but very limited	fabricating, car mechanic
engage local career professionals	Science
career exploration opportunities for students	Welding and diesel mechanics
career pathways for labor skilled jobs that can be found in Raton	mechanic welding pe teacher
parent pushback on labor jobs- prefer students to choose college	i really dont know
challenges in being in a small, rural community	marine biologist and cosmetology
need for more partnerships with community members	line man
need for a resource bank so that parents and students know what opportunities are available	nurse, mechanics
	Welding
	Space/NASA and art
	detective
	engineering
	medical field
	NFL
	Athletic training
	cosmetology
	I want to be a vet
	Physical therapist
	Criminal justice, investigators
	I wanna get into the food business.
	Being in the Law force or Detective
	a veterinarian and a carpenter
	any artistic career
	engineering
	I would like to know more about the court of law and the justice system.
	doing hair and nails.
	football

	lawyer i would like to learn more about
	game and fish
	mucanick
	voice acting.
	football and baseball
	idk law
	i want to be an archaeologist.
	Vet or banker
	world traveler
	I would like to work in the medical field specifically cardiothoracic surgery
	engineering
	english biology
	Just Physical education I just want to do sports for the rest of my life.
	Teaching
	Software Developer, Mechanical Engineer.
	Electrical, or carpentry
	Animation.
	Careers that deal with health like sport medicine. Also I like the outdoors and hunting and being a guide or something like that sounds fun.
	Art Professions
	electrician, building, construction
	one would be computer engineere
	Being an IT person sounds cool, but also a mechanical engineer.
	physical therapy
	construction
	Artist
	professional athlete and public speaking
	Baking I guess.
	Vet
	computacion
	Navy, working on engines, cooking, driving heavy equipment

	engineering and thats it.
	ela
	police
	I would like to be a vet or work with law enforcement.
	i want to go to the army and if not i will make a glass company
	Football is what i want to do.
	welding and machanics and barbering
	being a wood-shop teacher and behavioral heath worker.
	math and science
	Engineering
	Surgeon, doctor, and veterinarians
	Zoologist
	Engineering, for example Chemical or mechanical.
	Firefighting.
	Veterinarian, doctor
	C.S.I
	Sports Therapy
	Paleontology, Archaeology, and Anthropology
	I would love to be a pediatrician!
	Game development, detective, psychologist, etc.

What does your school do well to support your student success?	What do you wish they did more of?
They do well with helping them in development	I wish they would make lessons more engaging and use a variety of teaching methods
school makes my child fel welcome and comfortable , meet my child's strengths and areas of growth	better communication with parents
very supportive of my student	more access to extra curricular activities
the school keeps me informed	more parent participation
one on one support in areas my student needs to improve	staff should implement more support
teachers listen well and support parent concerns teachers communicate how to best support your childs learning	more school events- plays, performances etc.
good communication between teachers and parents	have more school functions
being able to access teachers at any time	more SEL
teachers provide extra help	wish teachers would be able to be teachers, less paperwork
good communciation	offer after school study sessions
positive praise	they say they will give extra support but often fall short
excellent staff	more arts and crafts
seperate advance students to keep learning	more tutoring options for struggling students
keep track of their diagnostic growth	very patient and understanding
good job skills, real world skills	more one on one support
teachers are prepared	
work with them at a steady pace	

**What does your school do well to support you in your student success? What do you wish they could do more of? What do you wish they did differently?**

help you, make sure you have a plan

How to treat on another. I wish they could help us out more in life.

they help me achieve my goals. Nothing is really needed.

real life skills

teach us in that class. talk to each and every student independently. less home work

teach us well, math

teach us, nothing, nothing

WE need therapy, teachers help me calm down

They could be more understanding

math i wish they could teach space during science.

they teach us, and i think they can do more of is taking more care of students mental health

yes

They support me in my education

make sports free, more freedom, let us wear hats

N/A

Most teachers give kids a second chance. I think if they had a better relationship with the kids they would have better outcomes.

Supply us with more economic studies. (How to pay bill, how to write/pay check, etc.)

the school does well as in teaching us what we need to know. I wish we could've switched electives

Have help whenever needed

My school provides a good learning education. they're doing a good job on everything.

Help me in all ways possible

have more classes

they help the students when they need it, but I wish they could focus on student's mental health a little more

they help me get my work done

My school supports me by making sure I have my grades in. I wish they could be more up to date on power school.

i feel like they could pay more attention to us and not just are grades.

They help me learn

help there students with work

makes sure we learn, i wish they could give us more time to let us do work, if they

to make sure we learn and wish for more time for work.
teaching
they make sure that we get a good education. talk to us about what we are doing wrong instead of yelling at us.
stop tik tok challenges and bullying
idk teach law
they give me food.
I wish some of them taught right because some don't
i need help understanding more explain in more detail
I wish that most ( not all) of the teachers actually got to know us for who we are and actually help a few of my teachers are not the best at actually helping or even teaching they just throw us a paper or put us on a device and they don't seem to care.
more welding and life lessons al
they help me learn new stuff
nothing, put me in class i WANT to be in
They tell me what i have to do when i still can do it.
I wish we had more independent study time.
They do well giving people multiple chances to do work or redo things they want to improve. I wish that we could go on more field trips. I don't know.
They have after school programs such as sports or tutoring in the morning if needed
I think its fine.
Our school is encouraging and most of the teachers teach us well. When I look around me, there are lots of "bums" that are not happy. Many kids don't appreciate the schools' efforts as they try to make school a happier place. Lots of kids don't have school spirit or even the respect they need to have for the school they attend.
They help me with my work.
thy need to do more prodjects
Id say they teach the things I need to be learning, I wish we learned how to manage money better or teach us how to get a job.
they are encouraging. i wish they did more hands on activities.
Teachers
They push us to succeed. Supporting their students emotionally. Stop worrying about the dress code and more about teaching.
I guess they reward students who do a good job in school. I feel like they need to do more of making sure that every student is understanding the work they're given and helping if they don't understand.
i think the teachers here are good maybe more time in the hauls and more teacher in the hauls
Students who can't read should not be in the 8th grade.

I wish they fixed there dress code cause it's dumb it's more like the teachers are more distracted than the student's by what I wear also most teachers in this school act like kids there so childish which are teaching the students how to be childish.
nothing good, how teachers treat their students, to learn a new method to teach students
they help you when you need help. they can hire not meen techers.
math
differint work
Our school teaches us very important things that will help with our future careers.
math, history , and p.e
all the work im doin is fine.
what they do well is help me learn. i wish they had more classes like p.e. i wish they did luch different.
nothing school teachers are horrible besides the wood-shop teacher
mart
math and what they need to do more of is science.
I wish they could be more interactive with kids and give them the options on what they would like to do and explore their intrests.
Well they motivate and everything Is fine how they treat students
Give us retrys
They give us new opportunities to join new clubs inside school that help build the skills that were put in the previous answers.
They support you if you have to retake a test.
They make sure that we are doing our work. I wish that they could give us a longer deadline for our grades. I wish they did differently was to that they did was the attendance.
thay could help more
I do think they help you become more efficient with your communication and work ethic but feel like they should lean on teaching something that would help you for life skills.
My school supports me in the classroom by teaching me. I wish that there was more hands-on work instead of just classwork.
Nothing really.
They offer opportunities for students to take to improve their chances in different aspects of their future. I wish they would do more things for mental health. I wish they wouldn't rush students.
